RUSSIAN NAVY MEETS DEFEAT

Japanese Navy Annihilates Rojestvensky's Squadron.

BATTLE DAMAGE TO TOGO'S SHIPS

Great Naval Battle the Japanese Were Successful Beyond Their Expectations—All Japan Is Celebrating Victory of Their Sailors.

Washington, May 30.—Mr. Takahira, Japanese minister here, has received a cablegram from his government relative to the naval engagement of Saturday and Sunday which said, while lacking in detail, confirmed the information that the Japanese victory had been "absolute and overwhelming.

Tokio, May 29.—2:50 p. m.—In the battle fought Saturday in the straits of Korea the Russian battleships Borodino and Alexander III, the armored cruisers Admiral Nakahir, Dmitri Donskoi and Vladimir Monomach, the coast defense ironclad Admiral Oushakoff, the protected cruisers Svietlana and Jemoituchig,, the repair ship Kamtchatka and the cruiser (?) Irtssin were sunk.

The battleships Orel and Nicholai I

ADMIRAL TOGO.

and the coast defense ironclads Admiral Senlavin and General Admiral Apraxine were captured.

The Borodino was a first-class battleship, completed in 1904, of 13,516 tons displacement, and 16,000 horsepower, giving her a speed of about 18 knots. She had an armored belt of from 4 to 9 inches of Krupp steel and from 6 to 10 inches of armor over her gun position and bulkheads. Her armament consisted of four 12-inch guns, twelve 6-inch guns and over forty of smaller rapid fire guns. Her crew numbered 740 officers and men.

The Alexander III was a sister ship of the Borodino, and was also completed in 1904.

The Admiral Nakhimoff was an armored cruiser of 8,524 tons displacement, of compound armor over her gun positions, carried eight 8-inch guns and about twenty 6-inch guns and about twenty smaller rapid fire guns. She had a complement of about 567 officers and

Dmitri Donskoi was an armored cruiser of 4,800 tons, sheathed, of 7,900 indicated horse-power, and had a speed of 18 knots. She had an armor belt six inches thick and had armor over her bulkheads and gun positions. Her armament consisted of six 6-inch guns, ten and sixteen quick-firing guns. Her crew numbered 510 officers and

Monomach was a cruiser of 5,593 tons and horse-power. She was had a belt of com and 10 inches thick and eighteen quick consisted of The admiral coast defense iron-clad, of 4,649 tons displacement and 5,000 indicated horse-power. She was completed in 1895, had an armor 10 inches thick, a protected deck of 2 inches of steel and from 7 to 8 inches of armor over her heavy gun positions. Her armament consisted of four 9-inch guns, four 6-inch guns and six 1.8 inch guns, and a number of small rapid fire guns. Her speed was estimated at 16 knots and she carried 3. officers and men.

The Svietlana was a protected cruiser of 3,862 tons displacement, had 3,828 indicated horse-power, was completed in 1897, and had o speed of about 20 knots. She had a 2-inch protected deck of steel, and 4 inches of armor over her gun positions. Her armament consisted of six 5.9-inch (Canet) guns and ten 1.8-inch guns. She had a complement of 360 officers and men.

The protected vruiser Jemtchug was of 3,106 displacement and 17,000 indicated horse-power, giving her a speed of about 23 knots. She was completed in 1903, had a protected deck of 2 inches of steel and carried six 4.7 inch guns, six 1.8-inch guns and two 4-inch guns. Her crew numbered 10 officers and men.

The repair ship Kamtchatka was a most important adjunct of Admiral Rojestvensky's fleet. She is understood to have been fitted up with every scientific appliance available for the repair of warships, and was described as being a floating worshop. She was launched at the new admiralty yard, St. Petersburg, Nov. 1, 1902. She was of 7,200 tons displacement, was copabl eof carrying 3,500 tons of coal and mounted six small quick-firing guns. She had a complement of 32 officers and 1,000 men. The Irtessim was probably an auxiliary cruiser, but its name is not given in any naval lists available.

The battleship Orel is a sister ship of the Borodino, and carried the same complement of officers and men.

The battleship Nicolai I is of 9,67 tons displacement and 8,700 indicated horse-power, giving her a speed of about 14 knots. She is sheathed and also completed as far back as 18 was thoroughly overhauled in 1900. She has a compound armor belt 4 to 6 inches thick, has a steel protected deck 2½ inches thick and has 6 to 10 inches of armor (compound) over her position. Her armament consists of two 12-inch guns, four 9-inch guns and eight 6-inch guns, and twelve quick-firing guns in addition to a number of small rapid fire guns. Her complement is 604 officers and men.

The coast defense iron clad Admiral Senlavin is a sister ship of the Admiral Oushakoff.

Washington Hears the News.

Washington, May 30.—Official announcement of the result of the naval engagement between the Japanese and Russia fleets was received at the state department today in the following cablegram from Minister Griscom, dated, Tokio, May 29:

"Admiral Togo has informed this government concerning the fight which took place on Saturday afternoon and Saturday evening. According to his report the Japanese fleet under his command destroyed and sunk one battleship of the Borodino class and four other large Russian war vessels. Two or three more were captured. None of the large Japanese men-of-war received serious injury.

"The battle was still in progress on Saturday. A great Japanese victory is announced here as the general result of the engagement, but few details have been received."

An official telegram from Tokio states that Admiral Togo reports to his government that the total losses sustained by the Russian fleet Saturday and Sunday are:

One coast defense armor-clad, five cruisers, two special service ships, three destroyers. All these were sunk.

In addition, there were captured two battleships, two coast defense armor-clads, one special service ship, one destroyer, over two thousand prisoners.

Admiral Togo adds that the Japanese squadron was undamaged.

Japanese Bonds Advance.

London, May 29.—12:30 p. m.—Up to noon today the foreign office was still without news of the naval battle from any British source in the far east. The Japanese legation was similarly without news from its government.

Reports are current on the stock exchange purporting to be from authoritative private sources that Admiral Rojestvensky's flagship Kniaz Souvaroff, was among the vessels sunk and that the Japanese are following up the Russians and picking off their ships one by one.

Operators on the stock exchange were cheerful over the Far Eastern news, hoping that the battle might prove decisive and lead to peace.

Consols went up 5/16 and Japanese bonds rose from 2 to 2½ points. The Russians were not traded in. Nominally prices were unchanged. Americans were 1 to 1½ points over parity. Orders from Paris forced the prices higher. The failure was announced of the economic bank on Bishops Gate street, a small concern of no importance whatever.

A dispatch to the London Evening News from Tokio says eight captains of Russian warships were drowned during the naval battle of Saturday in the straits of Korea.

Admiral Nebogatoff Captured.

Tokio, May 29—2 p. m.—Rear Admiral Nebogatoff (former commander of the fourth division of the Pacific fleet, and recenly commander of the scouts and merchantmen), with 3,000 other Russians, is among the prisoners captured by the Japanese.

Vice Admiral Rojestvensky appears to have escaped.

The battle began Saturday morning and the Japanese are still in pursuit of the Russians.

Hester Becomes Advisory Expert.

New Orleans, May 30.—Superintendent H. G. Hester, of the New Orleans Cotton Exchange returned today from Washington and announced that he had accepted the invitation of Director North of the census bureau to become special advisory expert to the bureau, in connection with the cotton industry. Mr. Hester will continue as superintendent of the exchange.

Woman Must Hang.

Montpelier, Vt., May 30.—The supreme court has denied the petition of Mary Rogers, for a new trial and the condemned woman must hang on next Friday. The petition was denied on the ground that no new evidence was produced to show that the woman was of unsound mind and unable to distinguish right from wrong at the time of the murder.

AMERICAN YACHT WINS KAISER'S CUP

The Atlantic Is The First Boat Sighted On Other Side.

MADE TRIP IN TWELVE DAYS

The Time Made by the Atlantic Is Quickest of Any Schooner Yacht Across the Ocean—No Other Racer Has Yet Been Sighted.

London, May 29.—10:47 a. m.—Barring accidents, the American three-masted schooner yacht Atlantic, owned by Wilson Marshall, of New York Yacht Club, is winner of the Kaiser's cup.

She passed abeam of Scilly Island at 9:57 o'clock this morning.

When sighted, the Atlantic was making good progress toward the Lizard (where the race ends). There was a light southwest wind and a smooth sea.

The Atlantic created a yachting record by crossing the Atlantic from the United States in 12 days.

No other yachts have yet been sighted.

If the breeze holds good, the Atlantic should reach the finish line about 3 o'clock this afternoon.

Falmouth, England, May 30.—At 6 p. m. today the signal bureau at the Lizard had not reported the sighting of the American yacht Atlantic.

NEW YORK PUSHING LONDON.

American City Fast Becoming Largest One on the Globe.

New York, May 30.—Taking of the state census is to begin next Thursday. Experts believe the results will show that Greater New York is rapidly becoming the largest city in the world and that in actual figures is not far behind London, which now holds the pre-eminence.

London's six million and odd inhabitants are distributed over an enormous area which is largely what might be called suburban. Considering New York as that community which radiates about 25 miles from the city hall, includes 2,000 square miles of ground and is populated almost altogether by persons who come to Manhattan every day and in everything except nominal residence spend their lives here, the figures, it has been estimated, will reach 5,456,091.

Based upon the results of the last census the enumerators expect to find 3,948,191 persons in what is called "Greater New York."

To Observe Memorial Day.

New York, May 30.—Observances this year of memorial day will be attended by more glitter and ceremony in this city than has been shown in many years. President Roosevelt is coming to Brooklyn to assist in the unveiling of the statue of General Henry W. Slocum. He will arrive in Jersey City at 7 a. m., and proceed by boat to Brooklyn. Mayor McClellan on behalf of the city will accept the monument from the park commissioner, M. J. Kennedy. The address by the president will follow. Henry W. Slocum Post No. 28 will have the place of honor. Among the members of the committee who will welcome President Roosevelt at Sand street will be Jacob H. Schieff, George J. Gould and John D. Rockefeller, Jr.

Ship's Cargo on Fire.

Norfolk, Va., May 30.—When the hatches of the Old Dominion steamer Hamilton took fire Sunday while en route from Norfolk to New York, with freight and which had to put back to this city in consequence were raised today smoke came forth in volumes, showing the vessel to be still on fire. Several tugs are lending all necessary assistance. The fire is thought to be in the steamer's cargo of cotton and truck for the most part and there is no immediate apprehension of serious damage resulting. Some of her cargo is now being removed on barges.

Will Inherit Large Fortune.

Des Moines, Iowa, May 30.—William Conrad Brandt, the adopted son of the millionaire William Zeigler, who died on Wednesday, will inherit the estate of $25,000,000. The boy, who is now 12 years of age, is the son of Mr. Zeigler's half brother, George Brandt, now a wealthy manufacturer of baking powder in Chicago, and was born in Muscatine. His mother was the daughter of William Hutig, a prominent Muscatine resident.

Slays Boy Lover and Suicides.

Wheaton, Minn., May 30.—Miss Antonia Seidenaticker, the 15-year-old daughter of Fred Seidenaticker, prominent in this city, shot and killed her lover, Herman Scheff, and then shot and fatally wounded herself, supposedly during a lovers' quarrel. The parties were out driving and the shooting occurred some four miles south of Wheaton.

Kentucky Murderer Killed.

Middlesburg, Ky., May 30.—William Condiff, who shot and killed Thomas Bradshaw in Adair county, was waylaid and murdered near Rowena, Russell county. His body was found in the road riddled with buckshot. The killing of Bradshaw was without provocation, and Condiff had been in hiding since the murder.

Seventh Drink Killed Him.

Amarillo, Tex., May 30.—Matthew Haywood, a well known character of this city, was offered all the whiskey he could drink by a friend in a saloon. He drank seven glasses, one after the other, and then fell over dead. He was 40 years of age and has no known living relatives.

BLACK PESSIMISM REIGNS IN RUSSIA

St. Petersburg Gloomy Over News of Naval Battle.

WAITING FOR OFFICIAL REPORTS

Admiralty Had Expected Their Ships To Reach Vladivostok in Safety, and the Blow Rojestvensky Has Received Is Demoralizing Them.

St. Petersburg, May 29.—1:55 p. m.—At the admiralty this morning absolutely nothing was known of the naval battle in the Far East except the news contained in the dispatches of the Associated Press. The general impression produced by the cable message undoubtably was extremely gloomy. While Admiral Rojestvensky was expected to pay the price for reaching his haven at Vladivostok the complete loss of two of his four best battleships, besides several other warships, with heavy damage to other ships which such havoc indicates is admitted to spell disaster unless the Japanese suffered correspondingly. For this reason news from Vladivostok, where the first communication with the Russian fleet will be established, is awaited with intense anxiety. The admiralty calculates that wireless communication with Vladivostok might be established as early as this afternoon or tonight, but as all despatches must first go to the emperor, the news is not likely to reach the public before tomorrow. It is a matter of general comment that the most definite and most reliable information received up to the time the official announcement was sent out from Tokio came by way of Washington. The receipt of the Tokio official bulletin announcing that Rojestvensky's fleet was practically annihilated was a crushing blow to the admiralty officials, destroying the hope to which many of them had clung—that the silence of the Japanese government might favorably be construed. The wording of the official dispatches were interpreted to mean that Admiral Togo had succeeded in barring and holding the entrance of the straits of Korea against Admiral Rojestvensky.

Some of the foreign press dispatches were confusing, but everything seems to indicate that Togo delivered a series of desperate torpedo attacks during Saturday night with the support of his heavy ships. The reported sinking of so many ships, it is believed, might also be partially due to mines sown ahead of the advancing Russian columns. The belief is also strengthened that Rojestvensky was forced in order to secure mogeniety in speed and fighting power to divide his fleet only a single division passing th estraits of Korea, the other going around Japan. The straits of Korea division, however, evidently included the pick of the Russian fleet, the Borodino and Orel being two of the four best battleships. It is possible that Admiral Rojestvensky transferred his flag from the battleship Kniaz Souvaroff to the Borodino or Orel before the fight in order to prevent the concentration of the fire on his own ship. Captain Sreberinnikoff, of the Borodino, and Captain Ignitieff, of the Orel, are regarded as extremely capable officers.

Owing to the decision of the newspapers to suspend Monday publications only telegrams are being printed on fly sheets. The Novoe Vremya alone comments editorially on the battle under the captain "The Hour of Fate Has Struck."

"The paper says: "Russia has been reproached with putting too much trust in God, sending too many ikons to the war and not enough men. The result is now, in the language of the Americans, in the hands of 'the men behind the guns.' We Russians will be patient until the full results are known."

Black pessimism reigns among the public.

Purity of heart is that quick and sensitive delicacy to which even the conception of sin is offensive.—Chalmers.

BILLS PASSED BY SENATE AND HOUSE

Last Week of the Legislature Is a Very Busy One.

GAINESVILLE TO ISSUE BONDS

State Insane Hospital Commission. Law in Regard to County Governments—To Aid Pensioners—House Votes to Raise Salary of Governor.

Tallahassee, May 30.—In the Senate yesterday several new bills were introduced as follows:

A bill introduced by Senator Scott, to extend the time limit for the construction of the St. Andrews, Quincy & Northern Railway, was advanced to its third reading. Another bill, by Senator Gillen, extending the time for beginning work on the Pan American Railway, was also advanced to its third reading.

Senator McCreary—To grant a pension to Henrietta E. Townsend of Alachua county.

The House bill to create a State board of accountancy and to prescribe its powers and duties, was passed.

Senator Adams' bill creating and providing for a special commission to inspect, examine into and report on the needs and requirements at the State Hospital for the Insane, was advanced to second reading and further action deferred awaiting amendments.

Senator McCreary secured the passage of a bill authorizing the city of Gainesville to bond for educational purposes.

The Senate passed House bill to provide for the disposition by the several counties of the State of the funds arising from and apportioned to the several counties from the hire of State convicts.

Senator Stockton's joint resolution relative to county governments was passed by the necessary three-fifths vote.

The bill appropriating $4,000 to the West Florida Fair was passed.

The substitute to the House bill relative to the Wailes-Beard claim, giving claimants the right to go into the courts to sue the State for commissions, was read the second time and Senator Harris offered an amendment to the amendment limiting the courts in which the claimants can sue to the courts of Florida, which was adopted.

Senator Massey offered an amendment to the amendment inserting a section repealing the $25,000 act of 1903, which was adopted.

The vote upon the committee amendment to the House bill, allowing the claimants to go into court, instead of appropriating $25,000 in two shares, was lost. On motion the House bill was indefinitely postponed.

The Senate adjourned.

In the House.

Tallahassee, May 30.—In the House yesterday a resolution of sympathy from that body was tendered to Rep. Dyal of Nassau, who is at home sick.

Mr. Rosborough of Alachua introduced a resolution calling upon the Governor to report to the House the names of banks in which moneys belonging to the several State funds are deposited in each such bank, with the amount paid on such deposits in each such case. The resolution was adopted.

Mr. Blanton of Madison introduced bill providing for the signing of the vouchers of pensioners of the State by either the clerks of the circuit court or by a notary public. This bill seeks to cure a great hardship now imposed upon the old pensioners, the present law requiring that all pensioners must have their pension vouchers attested by the circuit clerk, no matter how far they may live from his office. In many cases it is a great inconvenience to the old, infirm and poor pensioners. Under waiver of the rules the bill was passed.

Mr. Melton, chairman of the committee on city and county organization, reported favorably the bill authorizing the city of Jacksonville to issue bonds and providing for the payment thereof. The rules were waived and the bill passed—31 to 0.

Mr. Wilson's bill regarding State's attorneys and their salaries was passed.

Mr. Kilgore's railroad scales bill was passed.

The Hillsborough county armory bill of $4,704 91 was passed.

The Senate bill to fix the salary of the Governor at $5,000, was passed without debate.

The bill for the relief of General William Miller, a major-general in the Confederate army, granting him $25 per month. Pension was passed.

The House passed the memorial to Congress asking an appropriation of $50,000 to deepen Carrabelle harbor, near East Pass.

Mr. Buckman's bill to authorize the city of Jacksonville to make donations or payments to hospitals, was passed.

Upon motion of Mr. Wells, the Senate bill by Mr. Adams for the regulation of the sale of stocks of goods in bulk and to prevent the fraudulent sale thereof, was made a special order for Tuesday afternoon, and the House then adjourned.

FLESH BUILDER

The liver of the cod fish produces oil that is a wonderful flesh builder. No fat or oil can compare with it in that respect. To get the best out of it, it must be emulsified and made like cream. In Scott's Emulsion it is prepared in the best possible form to produce the best possible results. Thirty years have proven this.

Preparations are being made for a Sunday school picnic sometime next month.

Mrs. G. M. Lynch and family of Gainesville are the guests of C. P. Huffman.

Capt. Weeks is getting ready to pull out the Steamer Alert for a general overhauling.

Invitations are out for the marriage of Miss Maud Coward to Mr. C. W. Rogers of Live Oak, at the home of the bride on Monday, June 12, at 7 p. m.

Herbine

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints. It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise. R. N. Andrews, editor and manager Cocoa and Rockledge News, Cocoa, Fla., writes: "I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. Sold by W. M. Johnson.

NEWS TERSELY TOLD.

Calme Lizard, of New Orleans, head of the large Canal street clothing house of that name, died suddenly in a street car today. He was 77 years of age.

The judgment in the Gaynor-Green case by Judge Lafontaine, extradition commissioner at Montreal, has been postponed for another eight days, the judge not being ready.

The New York special franchise tax cases were decided today by the supreme court of the United States adversely to the corporations by which they were brought to the court.

Millions of dollars of taxes in arrears will now be paid as a result of the decision of the supreme court of the United States upholding the tax on the values of corporations franchises in New York state.

The conference between the Republic Iron and Steel company and the Amalgamated Association of Iron, Steel and Tin Workers will be held on Monday, June 5, at Detroit, to settle the scale of wages to be paid the ironworkers.

Important Chemical Discovery.

Rhinelander, Wis., May 30.—A local chemist has produced a liquid which is 11,000 times stronger than the best quality of beer and one drop of it placed in a large beer glass and filled with ice water produces a glass of pure beer of the finest grade. The extract contains an alkoloid from hops just 9,500 times stronger than crude hops, and the active principle of malt 12,700 times the strength of common malt made from the best barley. With the above is combined an article, which, on contact with water, produces instantaneous fermentation, forming 3½ per cent alcohol, the amount existing in the best grade of beer. An ounce bottle of the extract will make 480 schooners of about 30 gallons or pure beer.

Fortune Hangs on a Divorce.

Kenosha, Wis., May 30.—That her husband may obtain one-third of his father's estate, or $500,000, Mrs. Chas. Rogers of Chicago, has consented voluntarily to give him up, and has applied for a divorce. Mr. Rogers, whose home is in this city, is a son of the late D. G. Roger of Malwaukee. In his will the father provided that his son should not come into his inheritance unless he was divorced from his wife, giving him $6 a week so long as he lived with her. Mrs. Rogers has been separated from her husband for some time.

Revival Services in New York.

New York, May 30.—The first of the great mass meetings planned by ministers now working to inaugurate a religious revival in this city was held in the Academy of Music. The big theater was about two-thirds filled. The unique methods were used to get together a crowd. A dozen automobiles, invaded the main thoroughfares and the side streets. Reinforced by music speakers in the automobiles told of the meeting and besought all to attend.

Crops Hurt by Rains.

Birmingham, Ala., May 30.—A well-informed gentleman who has gone over Etowah, Blount, DeKalb and Marshall counties the past week, says there is a prospect of not more than a half crop of cotton this year owing to excessive rains, etc. He says many renters are desertinfi the fields for work on the railroads, etc., and that some farmers are replanting with other crops.

Living High at the Isthmus.

New York, May 30.—Eight former employes of the Panama canal commission who arrived here today on the steamer Orizaba from Colon said they resigned their positions on the isthmus because of the high cost of living and the health conditions there. They said that several other employes who had resigned for similar reasons would come to the United States on later steamers.

A SOCIETY WEDDING.

Miss Edith Chapman and Mr. James Turner United in Matrimony.

One of the society events of the season was the marriage at 1 o'clock Tuesday afternoon of Miss Edith, the accomplished granddaughter of Mrs. Edith V. B. Chapman, to James M. Turner of Jacksonville, which occurred at the home of the bride's grandmother, Rev. Thos. P. Hay of the First Presbyterian Church officiating. The affair was a quiet one, only a few of the most intimate friends of the contracting parties being present.

The bride is one of Gainesville's most charming young ladies, and is generally admired for her sweet, amiable disposition. The groom was formerly a resident here, growing to manhood in this city, but is now interested with his father in the manufacturing confection business in Jacksonville. He is very popular here, and his numerous Gainesville friends will extend congratulations upon him winning the hand and heart of so noble a young lady.

Immediately after the ceremony a lunch was served, and at 2 o'clock the happy couple left the city for points on the East Coast, where they will enjoy a short honeymoon.

MR. TAYLOR'S DEPARTURE.

Has Gone to West Point, Where He Will Enter U. S. Military School.

Gainesville has a number of young men of whom our people have a right to feel proud, especially from a military standpoint, for some of them are holding positions of high military rank in the regular army. In the person of Cadet H. LeRoy Taylor we have added another in whom the entire city will manifest an interest and who will watch his career with pride.

Mr. Taylor having been appointed to a cadetship at West Point, left yesterday for that place, where he will enter college at once. It goes without saying that his record will be a commendable one, if his friends here are to judge by his past.

Mr. Taylor went to Fort McPherson a few days ago, where he was instructed to report for examination. The examining officer made an excellent report, which gave the young man a high mark in every branch.

Mr. Taylor, as is the case with all others who are now holding positions of rank in the regular army, is a graduate of East Florida Seminary.

THEY WANTED LIQUOR.

Two Negroes Broke Into Store After Jug of Corn.

On Saturday night two negroes, full of a desire to get full of old North Carolina corn, broke into the store of W. H. Clyatt at Clyatt's station, on the Gainesville and Gulf, and were about to get away with a jug which some person had left in the place, together with other goods, to which they had helped themselves freely.

The negroes were captured and turned over to a deputy United States marshal upon a charge of breaking into the United States postoffice, the postoffice being located in the store. They were taken to Ocala.

Carload of Beds.

There has been "something doing" in the bed line in this city within the last two days, especially in the purchase of beds, the Gainesville Furniture Company having Monday closed a deal with W. E. Heron of the Heron Iron Bed Company, Chattanooga, Tenn., for a solid carload of the productions of this firm. This is regarded as nothing unusual by this firm, however, since it is the third carload of iron beds purchased from the Heron Company this year.

The Gainesville Furniture Company seems to be growing in popularity every day, but this is not to be wondered at when such clever young men as C. and D. D. Powell have the same in charge.

THE NEWS FROM ALACHUA.

Methodist Church Will be Painted. Mrs. Williams' Generosity.

Alachua, May 30.—Miss May Dell of Traxler is spending some time here, the guest of Mr. and Mrs. S. C. Dell.

Miss Maud Mason has returned from Sutherland, where she has been attending the Seminary.

S. C. Dell made a business trip to High Springs Tuesday.

A collection is being taken up to paint the Methodist church, as Mrs. F. E. Williams made the liberal offer that if the people would paint the outside, she would paint and carpet the inside.

Geo. P. Olmstead is spending a few days with his mother here.

B. W. Cato is now at Raiford as agent for the Atlantic Coast Line, and F. E. Guinn is filling the place here vacated by Mr. Cato.

Miss Nellie Nash, after a delightful visit to friends in Gainesville, has returned home.

Dr. and Mrs. J. C. Bishop are spending this week at Hampton Springs on a pleasure trip.

SANITARY CONDITIONS BAD.

A Number of Premises About City Are in Frightful Condition.

The "good old summer time" is on now, and the reporter notes several instances where property owners have neglected to properly clean their premises and place them in a sanitary condition.

It is needless to refer to the danger of leaving these premises in such condition, as such filth is sure to produce illness, and possibly that most dreaded of all diseases, typhoid fever.

The city should have by all means through the summer season a sanitary inspector. It is due the citizens of the city as a protection against diseases which naturally arise from unsanitary conditions, and it is to be hoped the Honorable City Council will take some definite action in this direction at the next meeting.

All premises and thoroughfares should be placed in a thorough sanitary condition—and that at once.

The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebannon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." Political Duel Ends Fatally.

Budapest, May 30.—Count Stefen Keglevitch was killed today by Karl Hench, of the People's party, in a duel fought with swords. The meeting was the outcome of a heated dispute in the chamber of deputies. Keglevitch was wounded in the region of the heart and died almost instantly.

Four Drowned in James River.

Springfield, Mo., May 30—Lee, Frank Gray, Miss Lou Rhodes and Miss Lou Rhodes and Miss Sarah Gates, all of this city, were drowned in the James river, near here. They were members of a picnic party and their boat capsized while they were trying to cross a mill pond.

Mount Vesuvius Erupts.

Naples, May 30.—The eruption of Mount Vesuvius continues, the volcano showing four new openings through which lava flows, while the immediate surrounding country is covered with ashes. The Funicular railroad has been compelled to cease running.

Shot Girl and Killed Self.

Plainfield, N. J., May 30.—Because Louis Kraemer, a young woman with whose family he boarded in Scotch Plains, refused to marry him, Frank Huber, a machinist, shot her in the face and then killed himself. Miss Kraemer probably will recover.

A World Wide Reputation.

White Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion, and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

PREPARING RAW OPIUM.

How the Drug Is Taken From the Poppy and Made Into Balls.

The preparation of "raw" opium in north India is carried out as follows: In February, as a rule, the juice is gathered, the poppy plant being then in full flower and of a height of three or four feet, each stem having from two to five capsules of the size of a duck's egg. Before the capsules are pierced the fallen petals of the flowers are carefully gathered and sorted according to condition in three grades and then are heated over a slow fire and formed into thin cakes, to be used for the covering of the drug when collected. The piercing of the pods requires great skill, and upon it largely depends the yield. The opium farmer and his assistants each carry a small lance-like tool, which has three or four short, sharp prongs, and with this a half dozen perpendicular cuts are made in each capsule or seed pod of the poppy. The juice begins to flow at once, but quickly congeals. The day after the thickened juice is carefully gathered, being scraped off with a small iron trowel, and the mass thus gathered is put into an earthen vessel and kept carefully stirred for a month or more, great care being taken to have it well aired, but not exposed to the sun. The material is now examined by expert testers, who determine its grade or quality, and then the whole is put into a large box, where it is worked very much in the same fashion as baker's dough to give it the required consistency. The opium is now made into balls for export; the natives wade about in the large vats containing the paste-like drug and hand it out to hundreds of ballmakers sitting around the room. Every man has a spherical brass cup lined with the poppy flower petals before him. Into this is pressed the regulation quantity of opium. From this brass cup, when properly pressed, the opium ball is transferred to another man, who gives it a coating of clay. This gives the drug, when ready for shipment, the appearance of a fair sized cannon ball. When well prepared in this manner, opium will keep its properties for fifteen years or more. Before it can be used the opium balls have to be broken up and further treated.—Tropical Agriculturist.

PITH AND POINT.

Few things are as good as they look.

A little girl likes to take care of a baby, but it's different with a boy.

People complain a good deal. Still, they have a good deal to complain about.

Don't be too sure of yourself. The other fellow may only appear to be fooled.

How often you hear the expression, "He thinks no one has any rights but himself."

If a boy is healthy, two minutes after he has reached home from school he is eating something.

Some day the time comes to every man when the most he can do for those around him is to be patient.

There are two kinds of luck, good luck for which you must work and bad luck which appears unannounced.—Atchison Globe.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and lagrippe. At drug stores, price 50c and $1.00; guaranteed. Trial bottle free.

The Skin of My Teeth.

Speaking of the somewhat popular lack of familiarity with the Bible, it deserves to be said that this deficiency is not confined to unlettered people. In an article on a political crisis in England Justin McCarthy quoted the expression "by the skin of his teeth" and parenthetically apologized for using what he called a vulgar phrase. The expression is quite commonly rated as slang by very intelligent people. A cynical commentator on this expression calls it an Usism, for the reason that Job originally made use of it in his wailings. Saith Job in his nineteenth chapter, twentieth verse:

"I am escaped with the skin of my teeth."—Boston Herald.

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.—D. R. Byrnes, merchant, Dovesville, Texas. 25c, 50c and $1. Sold by W. M. Johnson.

Motherhood

MOTHERHOOD is the reward nature bestows upon healthy womanhood. Women whose vitality has been sapped by disease cannot safely give birth to children. In pregnancy and in childbirth weakness of the mother is revealed in the pain and agony she suffers.

This great medicine drives out every vestige of inflammation and weakness, and gives tone and strength to the delicate organs which mature the child. The pains of pregnancy are banished by Wine of Cardui, and miscarriages, which blast so many fond mother's hopes, are prevented. Flooding, which so often occurs after childbirth, is corrected when Wine of Cardui is used during pregnancy.

Wine of Cardui babies are healthy babies, because, during the months of pregnancy, the mother is able to give them necessary vitality and strength.

With these facts presented to American women no expectant mother should be satisfied without the re-inforcement that Wine of Cardui will give her. Every mother should be able to treat herself in her home with this valuable medicine.

Wine of Cardui can be secured from any druggist at $1.00 a bottle.

Polycarp, N. C., Jan. 11, 1902.

I am the mother of seven children and while in pregnancy with the first six suffered untold misery until they were born. One month before the seventh was born I began to take a bottle of Wine of Cardui, which gave me relief after taking three doses. I used the remainder of the bottle until the birth of the child, and was stouter in three days after the birth than I was in a month after the birth of either of the first six. I am 29 years old.

The idea of the United States and England having one flag is getting too many in one bunk. We don't understand the meaning of the Union Jack.

Davy Jones must have had a hard time trying to pronounce the names of his guests at tea on Saturday night. They wrecked the wireless telegraph in trying to send them to the press.

The Daytona Gazette-News was "sweet sixteen" on Saturday last, and it is one of Florida's very ably edited weekly papers. The best of success to Editor Crouch is our wish for the future.

When people make up their minds in regard to the conduct of an official, it is generally hard sledding to make them think differently, even if the injurious statement does not contain the whole truth.

The Alabama and Georgia people are coming to Florida and enjoying the melons and peaches as they are beginning to ripen. A recent excursion had upwards of 2,500 bound from that section to South Florida.

The talk of tariff revision will pan out just the same as the railroad legislation has. "The folks at home" will never get a "square deal" at the hands of the Republican party. President Roosevelt cannot deliver the goods, should he so desire.

The legislative school board has been the cause of more unfavorable comment than any other in the State. In speaking of a Senator who opposed the maintenance of the old system of colleges, a gentleman was heard to remark: "Why, nearly every person in that county, represented by him, has for the past thirty years been educated at the East Florida Seminary, and if he had not been deprived of its opportunities to improve the mind, he would surely have stood by the Seminary."

Over one and one-half billion pounds of butter are consumed annually in the United States, according to Clarence B. Lane of the dairy division of the United States Department of Agriculture. Writing in the June Cosmopolitan on "Butter, Cheese and Condensed Milk as Factory Products," Mr. Lane says that factories have now almost wholly transferred the making of butter from the farms. The milk-producers co-operate in organizing, building, equipping and manging the butter factory and disposing of its products. In a factory of this kind all expenses are deducted from the gross receipts of sales and the remainder divided pro rata among the patrons upon the basis of the milk or cream contributed. The use of machinery and of various testing appliances has quite revolutionized modern dairying. The article is fully illustrated.

TARIFF AND RAILWAYS.

The plans for work for the Republicans in both houses of the next Congress, laid out by President Roosevelt, are along lines which must produce cold chills whenever the Republican members of House and Senate permit themselves to reflect. The President has pointed out so clearly that no man can misunderstand that the present railway system and the existing tariff schedules are both working untold injustice to the people of the United States. Rebates, under various names, but none the less wrong, are being constantly granted to favored shippers, discriminating rates which work untold injustice to a majority of towns and shippers at the expense of those less favored, are the common practice, and the government which created the railways and granted them their rights of way is powerless to correct these abuses in the absence of specific rate legislation. The tariff is sheltering monopoly.

The "protected hogs" have all four feet in the trough. The trusts, protected by the tariff, are perpetrating an outrage on American workingmen by charging two and three times the real value for the product of their labor to American consumers and selling the same goods abroad for their real value. These comprise some of the evils which the Republican majorities in the coming Congress will be called upon to remedy. And it is not a Democratic presidential candidate who has informed the public and will inform Congress of these evils, but a Republican president, elected by unparalleled majorities, in whom the people have the utmost faith. If the members of Congress do not act, what will the people think? If the Republican members of Congress do act, what will the trusts do? These are the questions which agitate the men who have long won their elections because they were willing to act in Congress as the abject tools of the trust and the railways.

END OF THE FARCE.

The national puppet show has been brought to a close. In other words, the Senate committee on interstate commerce has concluded its hearing and adjourned, as was expected without action. Rarely has a more pitiable spectacle been presented to the public gaze than that of Senators Elkins, Dolliver, Cullom, Kean, Foraker, Clapp and Millard, pretending to conduct an investigation into the advisability of railway rate legislation when every one of these men was, in reality, determined from the start to distort the facts and, nolens volens, make it appear that there exists no occasion for remedial legislation. Had it not been too pitiable it would have been ridiculous to observe the obsequiousness of the respective senators to their masters. For instance, Senator Cullom talked very bravely and almost espoused the cause of the people—until the president of the Illinois Central Railway appeared to testify. Then Mr. Cullom "heard his master's voice," and the scene was reiterated when the representatives of the Armour Private Car Company appeared before the committee. Senator Dolliver cringed before the officials of the Chicago, Burlington & Quincy Railroad and Senator Clapp was obsequious in his deference to J. J. Hill. As for Senators Elkins, Foraker and Kean, they were openly antagonistic to every man who testified against the railways. Senator Elkins sat throughout the hearing with a railroad attorney on either side of him and obediently propounded the questions which they wrote out for him, while Senator Kean was barely short of insulting in his method of interrogating witnesses who opposed the interests which he represents.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

COTTON ADVANCING.

The rise in the price of cotton is backed by substantial conditions, says The Cotton Trade Journal. While the leading operator seems to have called the market well, it is still true that manipulation cannot be held responsible for the advance, though it has crept in as usual to participate in whatever of scattering profits were to be found. The actual demand for spot cotton appears to be the real basis, together with unfavorable crop outlook, due to rainy weather, grass and scant labor supply.

Cotton mills here and abroad have awakened to the importance of buying their cotton to fill contracts covering long periods ahead. The cotton with which to fill existing contracts for goods will require a tremendous quantity, and while there was no rushing into the market at the time goods contracts were made for the raw material, spinners in most cases hedged up, and will now look to the seller to supply them. The demand for cotton goods, not prospective, but already certain, because fixed by contracts, will call for lots of raw cotton, none probably know just how much. It is possible, therefore, that mills are preparing against the evil of a future day by laying cotton into their warehouses in readiness for any undue bulge in prices. The prevailing demand comes from both home and abroad. Europe has been particularly eager for cotton for some time, and exports being large for both English and Continental account.

While the absorption of spot cotton has thus been in progress the market has advanced, though not out of proportion to the existing wholesale conditions.

The Florida cantaloupe is hard to beat. These luscious melons are now being sent to the Eastern markets from this section, and a sample proves them to be the richest in flavor of any we ever tasted. The crop is large and there will be large quantities of them sent to market, and if those produced in other portions of the State are as delicately flavored as the Alachua county product, they will find a ready sale in any city of the country. The Florida cantaloupe is certainly a gem, and there are no improvements needed on them.

MEMORIAL SERVICES WERE IMPRESSIVE

Ceremonies Were Not Elaborate But Very Impressive.

A LARGE CROWD ATTENDED

Lew Wallace Post, G. A. R. Were Assisted in Ceremonies by Stonewall Camp, U. C. V., and Both Chapters U. D. C., by Decorating Graves.

Union Memorial Day in Gainesville was properly observed by Lew Wallace Post No. 25, Grand Army of the Republic, assisted by members of Stonewall Camp, United Confederate Veterans, both chapters of the United Daughters of the Confederacy, and friends.

While there was nothing touching upon elaborateness, the services were interesting and impressive, the beautiful ritual of the G. A. R. having been employed at the cemetery.

By invitation of Lew Wallace Post, the invited guests assembled at the court house at 10:30 o'clock, where carriages were awaiting them for conveyance to the cemetery, the only place where ceremony was performed. The ladies brought an abundance of fragrant flowers, which was sufficient for the decoration of the grave of every departed hero, both Union and Confederate.

The ceremonies were simple, consisting only of an invocation and reading of a poem, "The Soldiers' Recessional," by Dr. F. P. Bullock, and the usual ritual ceremonies, concluding with the decoration of graves.

This was one of the most largely attended and most interesting functions of the kind held in Gainesville in recent years, and the committee on arrangements of Lew Wallace Post deserve a great deal of credit for the excellent manner in which everything worked.

MISS WIMBERLY'S RECITAL.

Macon News Pays This Young Lady a Deserving Compliment.

Of a recital given by Miss Wimberly, teacher of elocution in East Florida Seminary, which she tendered as a benefit in Macon recently, The Daily News of that city has the following to say:

"About 500 people attended the recital of Miss Clara Minter Wimberly at the auditorium last night, and were thoroughly entertained by her charming way of rendering the negro dialect and impersonations. The change in the voice when imitating a young man or old time darkey or a negro house girl was remarkable.

"At the opening of the evening's entertainment, the orchestra rendered an overture, following which the Hon. John T. Boifeuillet, editor of The News, introduced Miss Wimberly in appropriate words in which he paid Miss Wimberly high tribute, and also bestowed praise upon the members of the Macon Police Relief Association in whose behalf the recitations were given.

"Miss Wimberly's first sketch was 'Isam's Spectacles.' This was very heartily received by the audience.

"'Dr. Planner Ju-et' was the next on the program. The illustrations of the voice and piano was very fine.

"'Uncle Edinburg's Drownin' was next on the program and this sketch showed the negro in his joy and his sorrow, as told by himself.

"'How Honey Got Lost' was very amusing indeed and in fact the most laughable sketch of the evening. 'Honey' was found just 'Whar Misses had put him.'

"'How Sal Came Through,' the last number on the program, was the best appreciated of all. It showed how a negro girl got religion. The chants she sang and her prayers were both carefully portrayed by Miss Wimberly.

"The recital was greatly enjoyed by all. Miss Wimberly is a splendid elocutionist. Her impersonations and select recitations are faultless. The highly gifted young lady was given an ovation last evening, as was so richly deserved by her talents and graces."

Growing Aches and Pains.

Mrs. Josie Sumner, Bremond, Tex., writes April 15, 1902: "I have used Sloan's Snow Liniment in my family for years. I would not be without it in the house. I have used it on my little girl for growing pains and sore knees. It cured her right away. I have also used it for frost bites, with good success. It is the best liniment I ever used." 25c, 50c and $1. Sold by W. M. Johnson.

HEAVY CUCUMBER MOVEMENT

Thirteen Solid Cars Left This City Via Seaboard Monday Night.

Notwithstanding that the truckers declare the cucumber season is about at an end, the movement is yet quite lively, as was evidenced by the fact Monday night, when the Seaboard Air Line hauled out of Gainesville thirteen solid carloads of cucumbers. Five cars were from the growers of what is known as the Gainesville district, while eight cars were delivered to the Seaboard by the Gainesville & Gulf, coming from points south on that line. The cucumber movement from that section has been exceptionally heavy this season, but prices have not been encouraging.

Tuesday night the Gainesville & Gulf handled three solid carloads of cantaloupes from the farm of Cave & Co., Ft. Drane, who are among the most extensive planters of melons in the State. This firm has handled four solid carloads from their farm this season, which are the only solid carload movements yet recorded in the county.

To See If Japs Are Poachers.

Seattle, May 30.—Horace A. Taylor, assistant secretary of the treasury, has reached this city from Washington and states that orders have been issued for the revenue cutter Perry to start immediately for the Aleutian islands to discover if Japanese fishermen are poaching in American waters. If it is found that it is so, Mr. Taylor asserts the department of commerce and labor will take the matter in hand, and endeavor to stop the operations of the fishing fleet.

Woman Cruelly Deserted.

Macon, Ga., May 30.—A woman who withholds her name from the officers was left at a house near the Southern depot Sunday night by a man whose name she will not tell, and today she is the mother of twins, both dead. She is in a critical condition and has not been identified. The city physicians have been summoned and are making an effort to save her life, while the officers are trying to ascertain her name and that believed to have come here from another point.

Mars Canals Photographed.

Bloomington, Ind., May 30.—Word was received here that Professor C. O. Lampland, a former student in the astronomy department of Indiana university, but now connected with the Lowell observatory, at Flagstaff, Ariz., has photographed the canals in the planet Mars. This, it is believed, is the first time in the history of science that such results have been accomplished. Professor Lampland has secured twenty views of the canals.

Floridian Charged with Larceny.

Fitzgerald, Ga., May 30.—Sheriff D. A. McInnis came here from Inwinville in search of a young man by the name of Jackson, who is wanted at Palm Beach for some time, but have been visiting relatives here the past few days. McInnis left on the evening train with his prisoner, who will be tried in Florida. Mrs. Jackson remained here at the home of her mother, Mrs. Markland.

Making the Average.

At a woman's club meeting in New York recently a woman who had made a witty speech about men in general was asked by one of the members if she could tell just what was the meaning of the expression, "An average man." "Of course I can," she promptly replied. "I think an average man is one who smiles and looks pleasant all day at the office, but when he comes home acts as cross as a bear with a sore head, just so he can make up the average."

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all drug stores; price 50c.

WHIMSICAL CHARITIES.

Some of Them Work Out Very Well In the Long Run.

Many people who wish to bestow charity have strange ways of carrying out their ideas. Some years ago an Englishman named James Moss left $240 to be invested in land, the rent of which was to provide five gowns, according to the will, "of a sad blue color" for as many aged and poor men living in the town.

Some years ago a Frenchman named Bourne died and left to the poor of his town a few acres of no great value. For more than two centuries the lands yielded only a few dollars a year. The nearest large town began to spread and soon took in these lands. The value increased amazingly, so that today the revenue from them amounts to over $10,000 a year. From this sum sixty eight poor people draw pensions of $50 a year and twenty four old men and women live rent free and enjoy an annual present of $20 besides.

A similar charity, which has benefited many people, is that founded by William France. At his death he left lands valued at a few thousand dollars for Christmas gifts to his needy fellow townsmen. The revenue has now passed into hundreds and the sum of $22,500 is now distributed annually in the town. Of this sum $1,000 has been contributed to a local technical school and an infirmary. One of the strangest of these charities provided a sum of money with the direction that "on Sunday after divine service was performed there should be an annual ceremony of throwing bread and cheese out of the church steeple among the spectators and giving them ale." The custom was established by two women. Another beneficent act was by a man named Henry Greene of London. He was an odd character, who lived in the eighteen century and had considerable money. He left a sum of money, the interest of which was to be spent annually in providing "four old women with green waistcoats to be laced with green galloon lace and to be delivered to the women on or before Dec. 20, so that they may be worn on Christmas day."

William Robinson, one time sheriff of the town in which he lived, contrived to have his memory kept green at a much smaller cost than many men would pay for even a limited mortality. By his will he directed that every Christmas day twelve loaves of bread should be given to as many poor widows. But in order to qualify for the loaves the widows must present themselves at the testator's grave and receive their Christmas gifts over the bones of their benefactor.—New York Herald.

EVERYBODY WANTS A TIP.

Experience of an American Woman While Visiting Venice.

One of the things that most astonish you with regard to the working class Italian is the perfect frankness with which he shows his desire for a tip. No false modesty obscures it. You may sometimes fear that you will forget it. Let such fears forever rest. He won't let you. He will follow you, asking you if you have your parasol when he sees it in your hand or if you know the way out when he has just told it to you. The whole poor population of Venice is absolutely naif in its exhibition of a desire for any small sum of money the passerby may throw it. The children, one and all, make a demand for a soldino as a matter of course. It is a sort of greeting to every foreigner casually as a phrase of general usage.

Coming from the bath you fee the girl who has charge of the bathhouses. If you don't she has a dozen ways of making herself disagreeable next time you come. And do not allay your troubled anticipations by the thought she may not recognize you. One glimpse of a face fixes it in her memory for months. After that you fee the woman who takes care of your purse and jewelry. If you see her enough she drags out from some inner recess a cheap mirror which distorts your countenance and allows you to look into it and see how truly hideous the human visage can be made to appear. Before the bath you have to fee the old woman who gives you your bathing suit. If you neglect her the next time you come she will give you a suit that doesn't fit you or is full of holes.

When you go out on the terrasse for a black coffee, which costs 10 cents, you fee the waiter. When you get into your gondola you fee the old man who draws it close to the steps with a hooked stick and offers you his withered old arm to lean on. When you get out of your gondola at the hotel you fee another old man with a hooked stick and a withered arm. And then at dinner, if you haven't just feed the waiter he will be cross and up in your room afterward if the femme de chambre has got recently had a tip she will refuse to answer the bell.—San Francisco Argonaut.

The Thing to Do.

Johnson—He said I was an addle pated jackass. What do you advise me to do about it? Jackson—See a good veterinary.—Leslie's Weekly.

POLKA-DOT-CANS

NOW IS THE TIME TO PAINT.

Important Memorandum.—The secret in the most important factor in painting is the use of good paint, which, done by a good painter, with the best material of good quality, will last five years. The value gained by a gallon ($2.00 after $2.50 per gallon) of the good material is put at $10.00 per gallon ($2.00 per gallon).

Above all, USE GOOD PAINT!

The oil! linseed oil! Just pure linseed is the "life"—the one great requisite of good paint for which there is no substitute—and the *sure* way to get the pure, fresh linseed oil is to buy the oil and

Kinloch HOUSE PAINT

separately. *For every gallon of Kinloch Paint buy one gallon of linseed oil.* This makes two gallons of paint, ready for use. You then *know* that the paint you're putting on your house is alive—"the genuine oil is in it," and paint is not paint unless it contains 50% of really pure oil. We will further explain the virtues of Kinloch Paint if you will call and see us.

Fire to Fight Consumption.

Richmond, Va., May 30.—If the advice of Richmond physicians is followed many houses will be burned to the ground to rid them of the germs of tuberculosis. This remedy is, of course, costly and is in the majority of cases impracticable, but the doctors assure the people that there is no other way to assure the absolute destruction of the consumption germs and that it would prove cheaper in the long run to destroy valuable property, the retention of which eventually means the loss of many precious lives.

Strikers Expect Many Additions to Their Ranks.

Chicago, May 30.—Additions to the strike forces was expected today when all the firms in the hardwood lumbermen's association begun to make deliveries to strike-bound firms. There are 25 lumber firms in this association employing about 125 team drivers. Twelve of the firms are on strike and the other probably will follow.

We are going ahead with our deliveries, said Theodore Fathauer, president of the association, and by night I expect every driver in our line of our business will have quit. We are ready to replace the union men immediately with nonunion drivers, and anticipate no delay to our customers.

Georgia Normal School Closes.

Athens, Ga., May 30.—The tenth commencement of the State Normal school closes today. The large auditorium was packed to the doors with people who had gathered to take part in the religious exercises of commencement Sunday. The services were opened with the song, "Come, Thou Almighty King," after which Rev. J. J. Bennett, of Griffin, offered prayer. Miss Louise Bryan, of the senior class, sang a solo, "One Sweetly Solemn Thought." The baccalaureate sermon was preached by Rev. J. J. Bennett.

Alabama Bankers Adjourn.

Mobile, Ala., May 30.—The state bankers concluded their sessions and chose Anniston for the next place of meeting. Is no more dangerous than to neglect kidney disorders. Foley's Kidney Cure corrects irregularities and has cured many severe cases after other treatment has failed. It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for about two years," writes A. H. Davis of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Sold by J. W. McCollum & Co.

Whooping Cough.

Whooping cough is more infectious before the whoop develops than it is afterward. Children who have been exposed to the disease and have a slight cough should be isolated for several days lest they communicate it to other children. It may begin at any time during three weeks after exposure. When this time has passed without the symptoms appearing the child is probably safe.

A Woman's Criticism.

"Women generally go against their own best interests, don't they?" a blond girl asked reflectively. Her companion at one of those cozy little tables in a downtown shop that give one a chance to rest a few minutes after the matinee and talk over the play over a cup of chocolate only smiled, and the blond continued: "Do you see that little one act comedy at the table across the room? Madam over there came in with her husband and a cross frame of mind awhile ago. Perhaps it was a new hat she couldn't have, but anyway she wouldn't talk to him at all, and he made innumerable efforts to be pleasant. I was thinking what a goose she was when another man came in, the one she is smiling at now. Both bowed to him, and madam's husband invited him to their table, and madam, for the sake of appearances, of course—she couldn't afford to be disagreeable before him—began to chat brightly. Chances are she doesn't really care a straw about this newcomer, but she is nice to him. If she had as much wisdom as I," continued the blond, "she would have been as sweet to her husband—much more worth while."—Minneapolis Tribune.

Warning.

You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. MYSTERY OF DREAMS.

The Wonders the Brain Sees In the Fraction of a Second.

It is not unusual to hear one say that he has been dreaming about something all night, when possibly his dream occupied only a very short time. Many attempts have been made to measure the time occupied in a dream, and records appear from time to time in the papers showing that often elaborate ones occupy but a few seconds. The following incident is told by a gentleman who vouches for its accuracy:

He was engaged one afternoon with a clerk in verifying some long columns of figures that had been copied from one book to another. The numbers, representing amounts in dollars and cents, were composed of six or seven figures. The clerk would read, for instance, "Fourteen, one forty-two, twelve," making the amount of $14,142.12, and the gentleman would answer, "Check," to indicate that the copy was correct. Page after page had been read as rapidly as the words could be uttered, each number receiving the "check." The work was drowsy, and it was with difficulty he could keep his eyes open.

Finally sleep overcame him, and he dreamed—dreamed of an old horse he had been accustomed to drive twenty-five or thirty years ago. He could not recall any special incident connected with the dream except the locality and the distinct sight of the horse and of the buggy to which he had driven him. He awoke suddenly and, as a number was ended, called "Check." He was conscious of having slept and of having dreamed and said to the clerk: "Charlie, I have been asleep. How many of those numbers have I missed?" "None," he replied. "You have checked every one." Close questioning developed the fact that of the figures $14,142.12 he had heard the fourteen and the twelve, but had slept and dreamed during the time occupied in rapidly uttering the words "one forty-two." He tried by reading other numbers to measure the time and thinks it could not have been more than half a second.

Another story is told of a man who sat before his fire in a drowsy condition. A draft blowing across the room set a large photograph on the mantel to swaying. A slender vase was in front of it, and the man remembers wondering, in a mood of whimsical indifference, whether the picture would blow forward and send the vase to the floor.

Finally a gust of wind did topple the picture, and it struck the vase. The man remembers having been curiously relieved in his state of drowsiness that at last the "old thing was going to fall and be done with it."

Presently he was in the midst of a complicated business transaction in a western city miles away. All the details of a new and unheard of scheme were coming forth from his lips, and a board of directors was listening. The scheme prospered. He moved his family west. Fragments of the journey thither and glimpses of the fine house he bought came before his vision.

A crash woke him. The vase had struck the floor. He had dreamed an unlived life covering years, and all in the time it took for the vase which he had seen toppling before he fell asleep to fall five feet and break.—Youth's Companion.

Japanese Idea of Beauty.

Professor Okakura of Tokyo in a lecture delivered in this country said that the Japanese ideal of feminine beauty varied a little between Tokyo and Kioto, but on the whole the Japanese considered that a woman should not exceed five feet in height, should have a comparatively fair skin and be well developed, should have long, thin and jet back hair, an oval face, with a narrow straight nose, rather large eyes, nearly black thick eyelashes, a small mouth hiding behind red full lips, even rows of small white teeth, ears not altogether small, thick eyebrows and a medium forehead, from which the hair should grow in circular or Fujiyama shape—that is, a shape recalling the truncated cone of the famous volcano.

It Reminded Him.

The best remedy against a lapse of memory is the piece of thread tied about the finger. But there is a well authenticated case of a man whose wife tied a piece of thread around his finger in the morning to remind him to get his hair cut.

On his way home to dinner he noticed the piece of thread. "Yes, I remember," he said and, smiling proudly, entered the usual shop and sat down before the accustomed artist.

"Why, I cut your hair this morning," said the astonished barber.

A Stinging Reproof.

A gentleman had an inquisitive servant, Moses Chuma, whom he once saw reading a private letter of his. The next day he sent another letter by the servant containing a postscript: "You may bring the verbal answer by bearer. He has taken the precaution to read this letter."

Some persons in favor with fortune are out of favor with Shakespeare.

Springfield, Tenn., June 11, 1901.

I have been troubled with kidney and bladder troubles for a number of years and severely so, and having noticed the advertisement of Dr. F. W. Hall's Great Discovery, A Texas Wonder, concluded to give it a trial, from which I found great relief, and would recommend it to those similarly afflicted. H. H. KIRK.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists

For stylish clothes and clothes to fit, see Great Western Tailoring Company's samples at Gainesville Pressing Club, 117 W. Union street.

The vacant Pedrick lot at the corner of West Liberty and Garden streets has been converted into a veritable city of tents by venders of ice cream, lemonade, peanuts, fruits, fried fish, etc., and the scene, especially on Saturday, is one of activity. The receipts of some of these tent stands each day are astonishing.

Samuel Cook of this city, who was in New York for three or four years, has received from the commanding officers of Company G, Ninth Regiment, New York National Guard, of which he was a member, a 100 per cent medal for duty and deportment during the year 1904. This was quite an honor, and naturally Mr. Cook feels quite proud of this token.

For the information of friends, many of whom are constantly inquiring as to the condition of W. R. Anderson and wife, both of whom are seriously ill with typhoid fever at their home, 108 North Pleasant street, it is stated that the condition of both, especially the former, is quite serious, with but little change either one way or the other. This is unfortunate, and it is hoped both will soon recover.

PHIFER BROS.,

Frank A. Teague, a prominent citizen of Ocala, was a business visitor to this city.

A. J. Henry of Lake City is in the city. He is a prominent business man of that place.

Among the prominent visitors to Gainesville is Hon. Henry W. Bishop of Eustis, one of the most widely known men in South Florida.

In mentioning the private school to be opened in this city by Mrs. W. P. Coffey, the statement was made that the term would begin June 1st. This was a typographical error, as Mrs Coffey does not expect to open the school until Monday, June 5th.

T. Brinkley of Jacksonville was a business visitor to this city yesterday. Mr. Brinkley is largely interested in Jacksonville real estate. He is also a member of the firm of Brinkley & Baines, manufactnrers of lumber at Cyril on the Gainesville and Gulf.

W. N. Chamberlain of Tacoma, one of the progressive farmers and truckers of that section, was transacting business in this city yesterday. He states that the cantaloupe crop is a promising one. The movement of cukes will soon be over. There was a tremendous yield of this product, but prices were poor in all markets.

C. W. Bauknight of Archer, one of the leading citizens and business men of that progressive town, was among the visitors to Gainesville yesterday. He states that the vegetable season in his section is almost over. The crop was very good on average, but low prices prevailed on all products during the entire season.

Remember the Gainesville & Gulf has round trip rates to White Springs on Sundays at only $1. Train leaves Gainesville at 6:30 a. m., returning at 9:30 p. m., and affording a whole day at this favorite resort. Cheaper than hiring a buggy, and passengers are enabled to spend a day on the banks of the famous old Suwanee river. tf.

Rev. T. J. Kixon of Kavanaugh Methodist Church will fill his regular weekly engagement at North Gainesville Hall Friday evening. Services will begin at 7:45 and the public is cordially invited to be present. The services have been irregular recently, owing to the absence of ministers from the city, but in future it is hoped to hold services Friday evening of each week.

Spend a while at White Springs, the leading health resort of the State. On the far-famed Suwannee river. The Gainesville and Gulf offers the following low round-trip rates from Gainesville: Sunday only, $1; ticket good going Saturday and returning Monday, $2.50; ticket good for fifteen days, $3. Double daily service. For further particulars inquire of ticket agent. tf

Among the visitors to Gainesville are C. G. Lambert of Atlanta, general Southern agent and manager of the Atlanta central office of the Singer Sewing Machine Company, and J. R. Wells, State supervisor for Florida of the same company. These gentlemen are here in the interest of the Singer machine, and congratulate Manager W. H. Lipscombe of the Gainesville office on his excellent success.

Mrs. M. J. Juengura of Tampa, who has been ill in this city for the past few days, died at her boarding house at a late hour Monday night of tuberculosis. The lady was a complete stranger here. Her father, J. B. Cowart, resides near Hampton. The remains were taken in charge by Undertaker McClellan, who prepared them for burial, and the funeral was held Tuesday afternoon, the interment being in Evergreen Cemetery.

After a residence of several years at Hammock Ridge, Mrs. Goodspeed has returned to her former home in Chicago. During her residence here she made many warm friends who regretted very much to see her leave, but have consolation in the fact that should nothing happen to prevent, she expects to return in the fall. Mrs. Goodspeed desires to extend her thanks to those friends who were so kind and attentive during her recent severe illness at Hammock Ridge.

Ladies' Missionary Society.

A meeting of the Ladies' Missionary Society of First Presbyterian Church will be held at the church this afternoon at 4 o'clock. A full attendance is desired. Heralds, please come prepared to report.

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At all drug stores, 25c.
